

Wave Goodbye to Spreadsheet Stress: Manage Inventory from One Unified Platform with Lightspeed Retail and Linnworks.

Manage all your online and in-store stock in one unified platform. No more double-counting, data discrepancies, or inventory chaos. Experience a simple omni-channel sales system, with real-time updates. Wherever. Whenever.

Lightspeed Commerce is a cloud-based electronic point-of-sale (ePOS), eCommerce, and Payments platform designed to help market-leading retailers manage inventory, suppliers, teams, and stores from one unified platform. Linnworks is an inventory management system software that helps businesses keep track of stock between multiple locations.

Real-time stock levels for your web store and physical store

We support ambitious, market-leading retailers to scale their business by accessing new selling opportunities and building operational efficiencies.

Flexible fulfilment options

If an item isn't available at point of purchase, Linnworks and Lightspeed can work together to schedule shipment at a date, time, and location convenient to your customers.

One stock pool? Multiple stock pools? Entirely up to you.

You can choose to either manage your online and in-store inventory from a single location. Or, create multiple locations virtually to manage each outlet separately.

Already have Linnworks? Why Lightspeed ePOS?

Keep your inventory synced. Manage products and inventory across all your channels including your online and physical stores in one place to avoid overselling.

Scale your business and deliver exceptional customer experiences. Lightspeed ePOS is suitable for a variety of industries including electronics, apparel, sporting goods, and more.

Get the kind of support you've always wanted. One-on-one onboarding. Webinars, demos, and videos. Unlimited 24/7 support.

Lightspeed is trusted by 167k customers across 110+ countries.

Already have Lightspeed ePOS? Why Linnworks?

- ✓ Built for scale. Easily handle seasonal demand and unpredictable increases in volume of orders with Linnworks order and inventory management functionality.
- ✓ Automated inventory sync. Accurate, reliable inventory data synced across your sales channels. No more backorder and stockout headaches.
- ✓ Powerful order management. Eliminate manual effort. Our smart automation features enable you to create bespoke workflows and prioritise shipping priorities.

Key integration features:

Inventory Updates

Linnworks can automatically send changes in stock levels to Lightspeed when orders are made in store or online.

Order Download

Lightspeed orders can be automatically downloaded into Linnworks.

Channel Tax

Tax information and settings displayed on orders in Linnworks are saved from the Lightspeed account during order download.

Inventory Mapping

Lightspeed inventory items can be linked to Linnworks inventory items for stock level and price updates.

Location Mapping

Orders can be downloaded to and inventory updates sent from specific Linnworks locations.

Order Cancellation

Orders can be cancelled on Lightspeed via Linnworks.

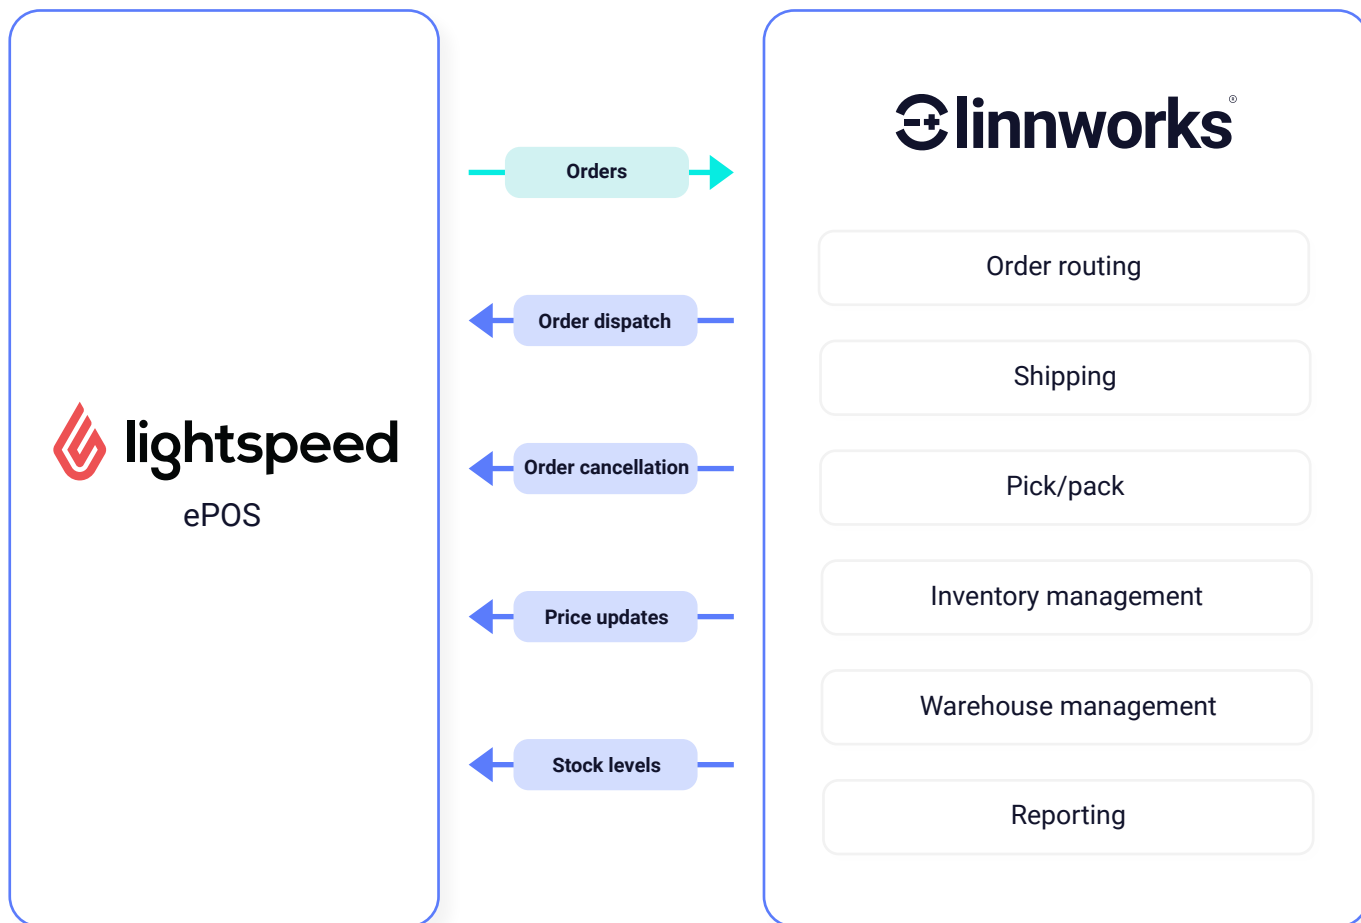

Order Dispatch

Orders on Lightspeed can be marked as shipped and dispatched via Linnworks.

Price Change

Prices on Lightspeed items can be automatically updated via Linnworks.

Free to install

There are no listing or set up fees. The Lightspeed integration is free for all Linnworks users.

Compatibility

The Lightspeed and Linnworks integration is only compatible with Lightspeed X-Series.

Get started

Fill out [this](#) form to start selling using Lightspeed.

Linnworks users can add the integration directly from the Linnworks channel integrations screen. For further details on Linnworks selling channels, please contact marketplaces@linnworks.com

Ready. Steady. Grow.
